# DRANSET

PX5/4400 Setup Utility Program

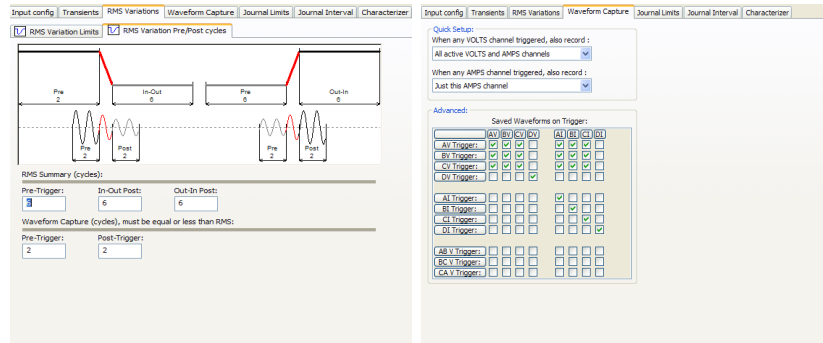

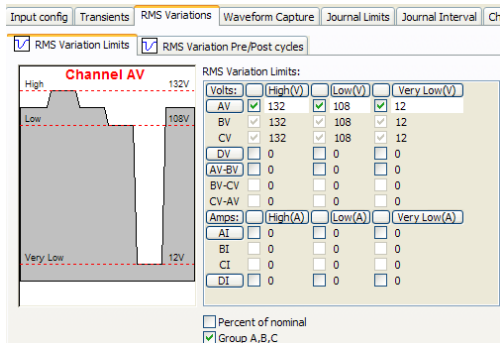

- Intuitive and easy to use software for creating and modifying instrument setups
- For use with Dranetz-BMI instruments:

**PX5-400**  
**PX5**  
**PG4400**  
**PowerVisa**

### BENEFITS

- Quickly create & edit setups using the convenience of a PC instead of the instrument
- User friendly and detailed windows
- Setups can be stored and later uploaded to instrument via memory card; can store multiple setups per card
- Customize setups for different applications
- Compare data between different setups
- Can save time and improve accuracy as compared to setting up in the field under typical time constraints

P/N: DRANSET. Compatible with PX5/4400 Version 2.0 or later and runs on Windows XP and Vista
